Re: Patent Application-10/600,364 filed June 21, 2003
"Method, Material, and Device of Making Graft"®©

Dear PTO:

This is following up patent application # 10/600,364, 2/6/07 interview, notice of referral cited, and responding mailed by Express on May 16 and June 20 for each Feb and May OA, notice of referral cited, and 6/15, 8/29, 8/30 email/telecommunication.

Applicant would accelerate the examination based on the following reasons:

- 1) The critical feature of the subject mater-cardiovascular bypass;
- 2) The original research was initiated from a VA donation since 1987 and this application has been over 4 years and applicant is 61 years old;
- 3) Please correct my grammar error on Response of May 16, page 1, heading 1. "All claims 1-16 are pending for examination" is corrected to "All claims 1-16 are cancelled and renumbered as claim 17-30 for examination" or allow the examiner to write or renumber the claim where appropriate.

So, please release the holding of process and allow the application be examined without further delay.

Because the fee confusion, additional WO and PCT information disclosure, my grammar error of renumbering, and the time gap of express mails, either the executive office, the examiner, or me know the exact amount, so, I intended to pay \$180 or open amount.

Attached is \$60 for extending one month and trust our PTO would pick up the ball to make the cardiovascular ischemia less deadly.

Respectively submitted,

Iris Chao Applicant pro se

Dear Ms. Yarborough:

It was very nice to speak with you and this is following up fees filed in response to the notice mailed 6/21/07 for 10/600,364.

Thank you so much for your help and the important correction of my grammar error. Your kind guidance is always a blessing in the receiving side.

Very sincerely,

Applicant pro se: Iris Chao
